MEMORANDUM FOR THE RECORD

SUBJECT: OXCART/U-2/TALLIN

On 26 April I called Carl Duckett and asked him where we go from here with the OSA U-2/OXCART/TALLIN matter. He said that in view of Admiral Taylor's comments, a conceptual "black book" with a briefing letter or transmittal memorandum should be prepared for Admiral Taylor. It is then up to Admiral Taylor to decide on how he wishes to handle this with the DCI. Admiral Taylor may wish to handle this matter directly with Mr. Helms or may invite DDS&T/OSA participation. He further suggested that conceptual "black books" be prepared for anticipatory reasons in the event that the DDCI and DCI wish to carry this promptly to the 303 Committee. Director of Operations, OSA, has been appropriately advised of the foregoing.
